

# REGINE SAM YUNN HONG

## Technology Delivery Leader · Program & Engineering Executive

 Selangor, Malaysia  +6012 331 2821  regine.sam@gmail.com

 [linkedin.com/in/regine-sam](https://www.linkedin.com/in/regine-sam)  [reginesam.github.io/portfolio](https://reginesam.github.io/portfolio)

## PROFESSIONAL SUMMARY

**Technology delivery leader with 25 years of experience** — the last 10+ inside a wealth & people intelligence company (Wealth-X / Altrata) delivering platforms that map global wealth, affiliations, and company data. I grew the Malaysia engineering team from 3 to 16 people, served as Acting Head of Technology, and later led 3–5 concurrent projects as part of a 13-team platform build consolidating five acquired brands.

I bring three capabilities most people only have one of: **program governance & RAID management** (SteerCo, dependency tracking across 13 teams), **engineering leadership** (hiring, mentoring 8+ developers, capacity planning), and **technical delivery depth** (hands-on Java background, AWS, Salesforce, Elasticsearch, API architecture).

✅ Consistently ~95% on-time delivery · 🏆 Pillars of Success Award Q4 2024 · PMP in progress (prep course completed) · ITIL® certified · AWS GenAI & MLOps trained. Fluent in English, Mandarin, Cantonese, Malay.

## CORE COMPETENCIES

### Program & Delivery

RAID management · SteerCo reporting · Scrum of Scrums · release coordination · dependency governance · vendor & contract mgmt

### Engineering Leadership

Team growth (3→16) · mentoring · performance reviews · recruitment · IT operations · incident response · budget/cost governance

### Technical Depth

AWS Cloud · Salesforce integration · Elasticsearch · Databricks · REST APIs · Java · MySQL · Jira/Confluence admin

### Cross-Cultural

English · Mandarin · Cantonese · Malay · distributed teams (MY, UK, US, India)

## PROFESSIONAL EXPERIENCE

### Senior Project Manager (Technology Delivery Lead)

Apr 2023 – Dec 2025

Altrata (formerly Wealth-X) · Selangor, Malaysia · 13-team global programme

Owned delivery of 3–5 concurrent workstreams across AWS, Salesforce, microservices APIs as part of a 13-team platform build consolidating 5 acquired brands into one unified product.

- Built AAA platform (Authentication, Authorization & Account) from scratch — security backbone for all Altrata products (3 teams, 10 months). Established pentest sign-off as mandatory release gate adopted programme-wide.
- Rescued Bedrock Phase I (4-week delay) under CTO directive: reworked scope & estimates, delivered before non-negotiable vendor contract expiry.
- Delivered Profile & Search API suite + 3-phase Salesforce integration (C&E, Wealth, Relationship), managing API dependency contracts and cross-team Scrum of Scrums → all published to Salesforce.org.
- Won **Pillars of Success Award Q4 2024** for on-time delivery under sustained cross-team pressure.
- Led SteerCo reporting, RAID frameworks, and coordinated release planning across 13 internal+vendor teams.

Bedrock Rescue

Salesforce Integration (3 phases)

Profile & Search API

### Director of Software Development

May 2020 – Mar 2023

Wealth-X Services Sdn. Bhd. · Selangor, Malaysia · (incl. Acting Head of Technology ~6 months)

- Led 16-person engineering org (dev, QA, DevOps, app support) on AWS — managed infrastructure budgets, incident response during AWS outages, and production monitoring.
- Served as Acting Head of Technology during leadership transition: oversaw IT operations, DR/BCP compliance, vendor renewals, and security remediation.
- Established delivery standards & resource planning calendar adopted across all scrum teams, improving sprint predictability.
- Advised CTO on release go/no-go via code review outcomes & QA results; managed performance and hiring across engineering leads.

### Senior Software Development Manager

Oct 2018 – Apr 2020

Wealth-X Services Sdn. Bhd. · Selangor, Malaysia

- Led Agile delivery with ~95% on-time release rate across 10+ software initiatives. Managed IT operations: helpdesk, production monitoring, anomaly detection, AWS cost tracking.
- Replaced USD \$20k/month third-party search engine (Transparenssee) with proprietary Elasticsearch solution before subscription expiry.
- Mentored 8 developers (several promoted to senior/lead roles); managed KPIs, recruitment, and Tech-to-Product roadmap influence.

### Application Development Manager

Nov 2013 – Oct 2018

Wealth-X Services Sdn. Bhd. · Selangor, Malaysia

- Grew Malaysia team from 3 → ~12 people across two expansion waves after Singapore office closure (2016).
- Maintained hands-on Java development while managing BAU delivery, feature enhancements, and production support.
- Sole developer of internal Salesforce CRM integration API (credit validation, deduction, balance retrieval) used by all client-facing products.

## Earlier Career: Software Engineering & Team Leadership

2000 – 2013

S5 System, Tradeship, Agenda Solution, Silverlake, IAS, Krisbiz, PDX BizSystem · Malaysia / Singapore / Thailand

Progressed from developer to team lead across banking, immigration, logistics, and government sectors. Built and led small engineering teams (3–5) delivering enterprise Java systems with SDLC governance.

## SELECTED PROJECT DELIVERIES

### ✓ AAA platform

Built from scratch · 3 teams · pentest gate

### ✓ Salesforce integration suite

3 phases · published to Salesforce.org

### ✓ AWS Aurora migration

Zero disruption · MySQL 5.7 EOL

### ✓ Credits migration

Quota → credit-based, on time

### ✓ Bedrock (CTO rescue)

Recovered 4-week delay → deadline saved

### ✓ Profile & Search API

Backbone for all microservices

### ✓ Elasticsearch migration

~\$20k/mo saved · before hard expiry

### ✓ Screening software (macOS)

Built installer + presales + on-site

## AWARDS & RECOGNITION

**Pillars of Success Award – Altrata (Q4 2024)** — recognized for on-time delivery of Executive & Company API and Salesforce releases through cross-team leadership and stakeholder coordination.

## EDUCATION & CERTIFICATIONS

### Education

BSc (Hons) in Computing – Staffordshire University (2001)

Higher Diploma in Business IT – APIIT College (1999)

Certificate in Computer Studies – TARC (1997)

### Certifications & training

PMP® – prep course completed Apr 2026 (exam underway)

ITIL® Foundation (Apr 2014)

MLOps Engineering on AWS (Dec 2025)

GenAI Essentials on AWS (Dec 2025)

Open to senior Technology & Delivery leadership roles (MY / SG) · Full-time or contract · Available immediately.
